DrafStation™

Mutoh's DrafStation, offering a maximum media size of 1080 mm (42"), is a professional printer at an exceptional price point, specifically designed for architectural, engineering, construction, mechanical design and GIS applications.

DrafStation incorporates a new generation "Wide Model" print head (4 colour sections, 360 nozzles/colour), which will enable the highest resolution for CAD, 2880 dpi. DrafStation delivers superior line sharpness and photo quality with continuous tones, smooth transitions and a wide colour gamut. Offering various print resolutions for various applications, DrafStation delivers a high speed 360 dpi A1-size output in 44 seconds and an A0-size output in 91 seconds. The CMYK printer is delivered with special black pigmented ink offering excellent UV stability & enabling production of super fast draft plots on cheap media.

Compactly designed, DrafStation will moreover deliver an unequalled installation and operation friendliness.
